The Academy Audio Presentation Recordings:

Audio presentation recordings exist but have not been found or collected yet.

For several years, Boyce Batey made audio cassette recordings of Annual Conference Presentations, and made these available for purchase to the Academy membership. In 2008, Boyce reported that the unsold audio cassettes were part of his inventory of unsold Academy publications. Lee Lawrence reported that he collected this inventory from Boyce. Stephen Hall reported that he has a number of these tapes that he purchased back then.

If found, these will be converted to .mp3 file format for the Archive.

From 2003 to 2010, the Academy published a total of 127 Audio Cassettes for each of the presentations of each Annual Academic Conference, including the years 2005 and 2006, when written Conference Proceedings were not produced. These tapes are the only record of the conferences in these years. They were sold for \$7 each.

From 2011 to 2013, the Academy published a total of 3 MP3-CDs, one for each of these 3 years. They were sold for \$25 each.

None of these recordings have been found for the Archive. We were expecting to find them in the boxes that Lee picked up from Boyce after he retired from the Academy. In 2021, Lee said that these were in his basement. However, last

December Lee said that he remembers the boxes that he picked up to be empty except for empty cassette cases. Karin and Steve both say that they might have a few of these tapes and will look for them.

Following is a listing of all audio recordings produced:

The Academy Video Presentation Recordings:

Video presentation recordings exist but have not been collected yet.

Lee Lawrence made video recordings in the 2015-2016 period of Annual Conference Presentations, and perhaps other years, that are stored on SD cards, he reported in 2021.

If found, these will be converted to .mp4 file format for the Archive.

From 2014 to 2019, videos of the annual conference presentations were reportedly made, by Lee, by Tyler and possibly others. Both Lee and Tyler reported in 2021 that they have these videos on SD cards. Both offered to send them to the Archive, but then did not, and both have refused to answer inquiries about them since then.

There is no evidence that these videos were published or uploaded to the internet, with the exceptions noted below. There was a reference in the books that were published in lieu of Proceedings in 2014 and 2014 to go to ascsi.org to purchase DVDs, but this website never mentioned DVDs for sale.

The exceptions are one conference presentation of Karen Herrick that was uploaded to YouTube in 5-minute segments, which I have pieced back together, a conference presentation of Lee Lawrence that he himself uploaded to the Academy Facebook page, a conference presentation of Tyler Stevens that he himself uploaded to the Academy Facebook page, and a handmade video of the conference presentation of Stephen Schwartz that someone uploaded to the Academy Facebook page. These videos are grouped together in an Archive item in the Featured Items section of the Archive titled: "ASCSI Annual Conference Videos 2015-2019", located at: <https://archive.org/details/2019-tyler-stevens-the-future-of-psychic-research-marketing-the-science-of-psi>

There are no videos in the "Complete Published Works" of the Academy (since no videos made were actually published).

Here is a list of all of the Annual Conferences in which videos were taken between 2015-2019 (any videos found will be matched to one of these conferences):

The Spirituality Matters! E-newsletter was published in 2016 and 2017. No copies survive. The job of editor was given by the Board to Karin Nemri. In each issue, she reviewed 6 to 12 resources already on the web and provided links. These resources could be writings or videos. This e-newsletter was intended for the public, but was only every emailed to members, as a public mailing list was never developed. Karin got no support for this project and abandoned it after two years. No one else volunteered.
